MAD SCIENTISTS OF THE PLAYGROUND

Play is a fundamental aspect of childhood development. Each Playit Creation is designed to stimulate young minds and bodies by encouraging exploration, social interaction, and physical fitness. From towering steel structures to whimsical rope bridges, or intricately carved creatures, every structure is thoughtfully engineered to be not only safe and durable but also captivating and inspiring.

The design team at Playit Creations believes that if you can imagine it, we can build it. For over two decades, we have designed and built playgrounds with everything from pirate ships to dinosaurs, and from fairy tale castles to tree houses.

We are dedicated to crafting imaginative and durable play structures from an array of materials including steel, Glass Fiber Reinforced Concrete (GFRC), composite and recycled plastics, paneling, rope, rubber, and more!

Nestled at the intersection of innovation and play, Playit Creations combines engineering and fabrication expertise with a passion for fostering creativity and physical activity in children.

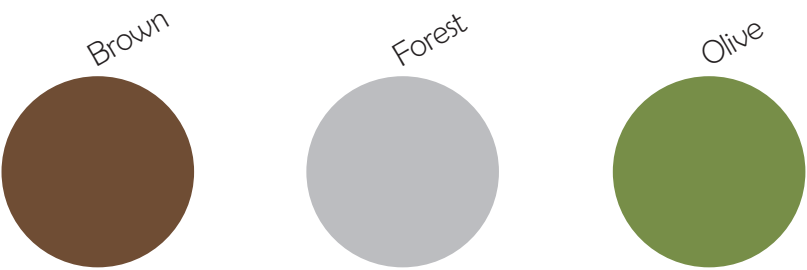

A large, multi-level wooden playground structure with a prominent yellow slide, set against a clear blue sky. The structure includes platforms, railings, and decorative elements like a large tree trunk and a small owl. The ground is covered in wood chips.

STANDARD COLOR SCHEMES

NEW!

ALIGN™ PLAY CUBES

ALIGN™ PLAY CUBES

ALIGN™ CUBE 03

The **Align 03** creates a skyscraper observation deck experience with a functional telescope. Meshed Walls and Ceilings provide a safe, elevated experience. Connects to other cubes with slides or net tunnels!

ALIGN™ CUBE 02

The **Align 02** showcases a balcony space with safety railing. Wide-slatted walls allow multiple points of play. Connects to lower elevations by fireman poles, net climbers, and vine climbers.

ALIGN™ CUBE 01

The **Align 01** is our base with amazing flexibility. Narrow slatted deck walls, built in rock walls, and small scale sliding allows internal access to other cubes. Customization with sensory play panels allows for a more tactile experience.

Why Stop Here?!

Looking for a cantilevered balcony or a ropes course?

No Problem!
We specialize in customization. Our highly creative designers will work with you to make your vision a reality and a perfect fit for your site.

INTRODUCING

MODULAR
PLAY SYSTEM

- A Full Spectrum Of Vibrant Color Options!
- A Wide Array Of Climber And Play Materials!

 Required Space: 55'-2" X
 53'-0" (16.8m X 16.15m)

What's New with

Expanded Colors

Our new bright color schemes provide a vibrant, eye-catching play environment in order to engage children by creating a visually striking outdoor space.

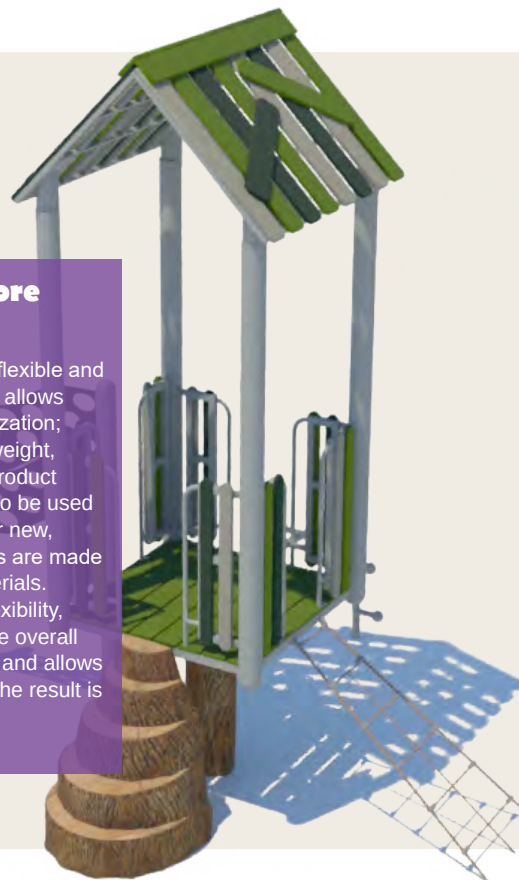

If you are looking to blend into a natural surrounding area, traditional neutral or brown-tone colors are a great choice..

Superior Coatings

Our powder coating is highly resistant to weather elements, making it an ideal choice for outdoor applications, where long-lasting protection is essential. Its smooth and even finish is resistant to corrosion, scratches, and fading.

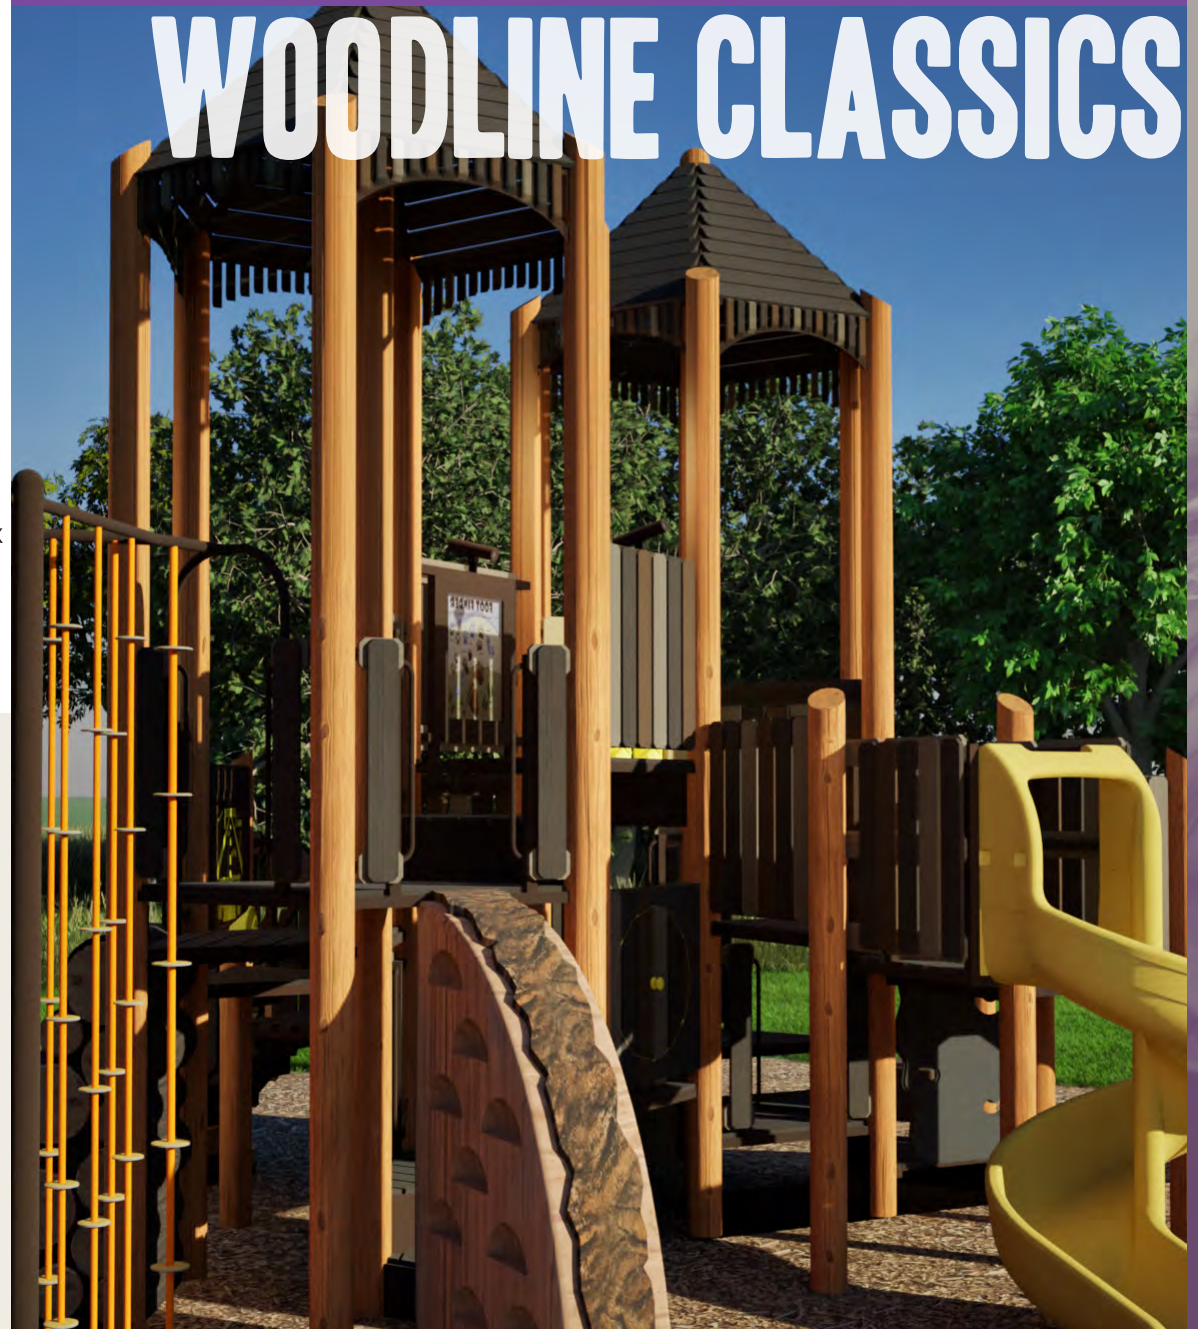

More Play, More Materials

GFRC is a creatively flexible and dynamic material that allows for maximum customization; however, the added weight, size and cost of the product can restrict its ability to be used in every situation. Our new, cost-effective climbers are made from a variety of materials. This allows budget flexibility, potentially reduces the overall weight of the system, and allows for an easier install. The result is more play per dollar.

playitcreations.com

INTRODUCING WOODLINE CLASSICS

A LEGACY REBORN

For decades, classic wooden playgrounds stood as symbols of adventure. Their rustic towers and bridges became the backdrop of childhood memories that still echo in the hearts of families and communities.

Start Here!

Play Towers are the first step to building your perfect play space. Choose the look of your playground starting with the options below!

Forest Tree Tower

Decks are positioned high up in the treetops in this Play Tower unit. Split deck heights are set at 8" increments, spanning from 2' to 12' in height.

Square Log Slice Tower

Adjustable top decks can span from 3' to 6' with an under-deck tunnel that allows for ground level play. Realistic log and bark textures with four spaces to add play events.

Single Post Treehouse

These Play Towers come with a "hodge-podge" treehouse look with composite wood rails set atop a single tree stump with realistic log and bark textures. 2'-6' deck heights

Hex Log Slice Tower

Enlarged play tower comes with an adjustable top decks can span from 3' to 6'. Under-deck tunnel allows for a multitude of ground level play. Realistic log and bark textures with six spaces to include your choice of play events!

TREE WALK™ VILLAGE TOWER

Tree Walk™ Village Tower

Select our Tree Walk™ Village Towers for a treetop experience like no other.

Ascend to the elevated overlook using the internal tree trunk climber or the various climbers attached to the hexagonal, wrap around deck.

PLAY COMPONENTS

Go ahead, take your pick!

Whether you're looking for a fully themed treehouse like the **TreeLine™** Series, or a vibrant, steel-post system like our **T2™** playgrounds, you can mix and match these components to any of our play tower designs. Having every choice available to you ensures you get the best solution for your site, your budget and most importantly, your unique group of children.

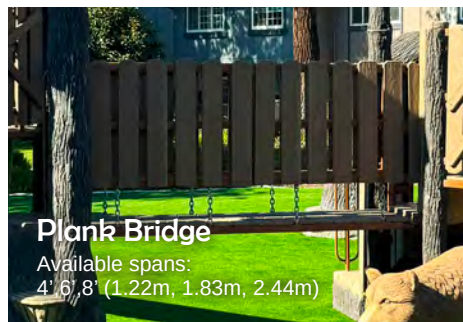

TreeLine™ Stairs

Provides easy access to and from decks of different heights.
Available spans: 24"- 48"
(.60m-1.22m)

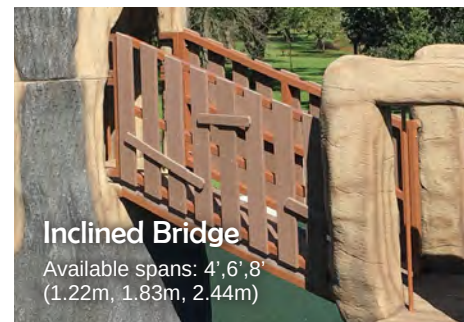

ADA Transfer Station

Allows for an accessible path to elevated play features.
Available heights: 24"- 48"
(.60m-1.22m)

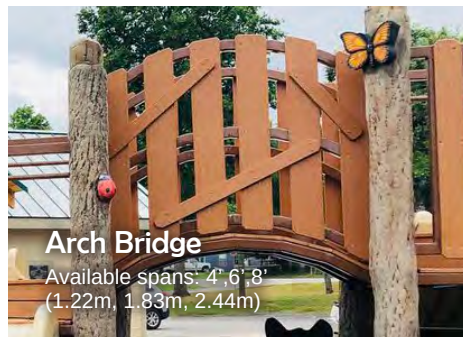

Plank Bridge

Available spans:
4', 6', 8' (1.22m, 1.83m, 2.44m)

Inclined Bridge

Available spans: 4', 6', 8'
(1.22m, 1.83m, 2.44m)

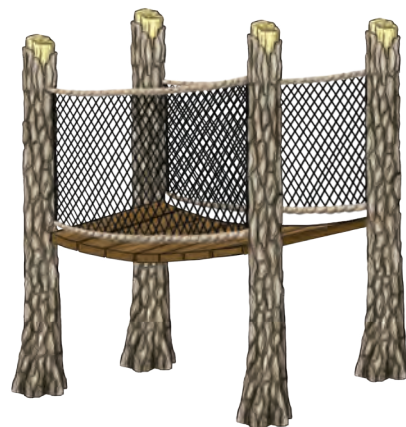

Arch Bridge

Available spans: 4', 6', 8'
(1.22m, 1.83m, 2.44m)

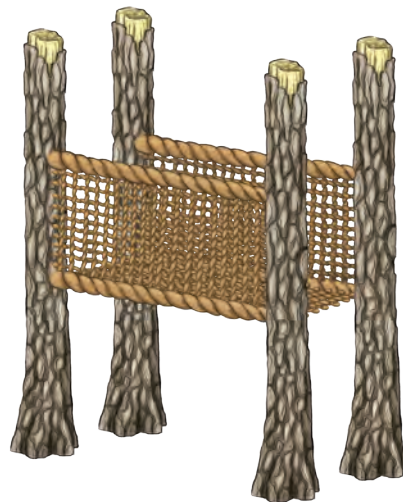

Steady Bridge

Bouncy, wobbly bridge provides a fun walk from decks of same or differing heights.
Available spans: 4', 6', 8'
(1.22m, 1.83m, 2.44m)

3-Sided and 4-Sided Cable Bridges

Provides easy access to and from decks of the same or differing heights.
Available spans: 4', 6', 8'
(1.22m, 1.83m, 2.44m)

Corrugated Rooftop

TreeLine™ Plank Rooftop

Pine Top

Planked Sun Shield

V-Cable Bridge

Provides easy access to and from decks of the same or differing heights.
Available spans:
24"-48" (.60m-1.22m)

Inclined Ramp Climber

Features composite wood planks along a composite ramped base.
For deck heights: 2'-8" (.60m-1.83m)

Log Ladder

Log themed ladder is a fun tree-themed climb to the deck.
For deck heights: 2'-10" (.60m-3.05m)

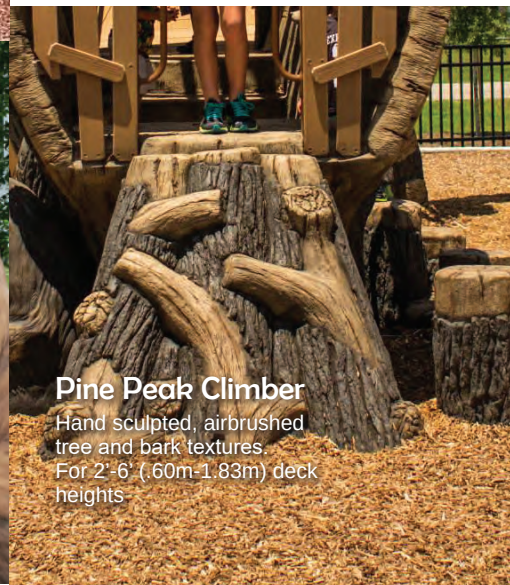

Clatter Ladder

A plank style climbing ladder with double rope attachment providing limited movement.
For deck heights: 2'-8" (.60m-1.83m)

Steady Ladder

A fun, challenging plank ladder for children aged 5-12. Single rope attachment adds extra movement.
For deck heights: 2'-10" (.60m-3.05m)

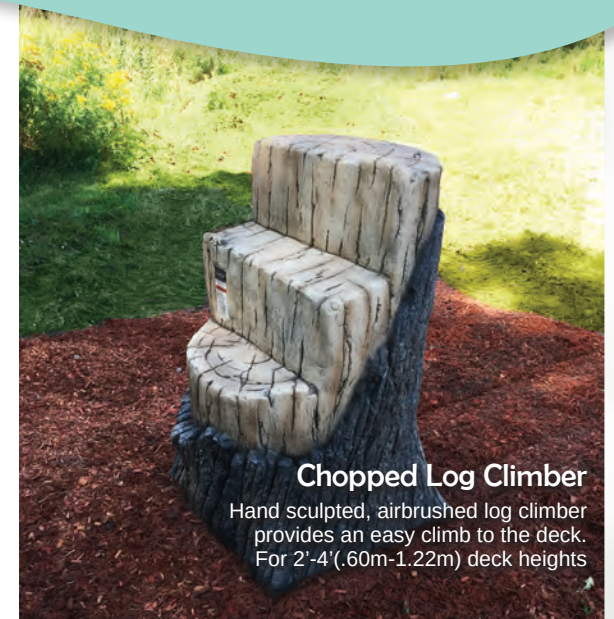

Spiral Stump Climber

This unique climbing tower comes with integrated spiraling fungus shelves and realistic log and bark textures. Landing platforms span from 2' - 5' (.60m-1.52m)

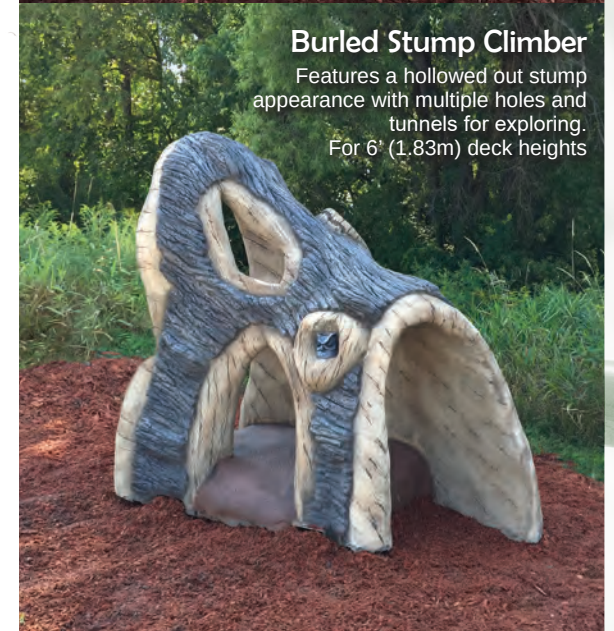

Prairie Grass

Grass and rock climber is hand sculpted and airbrushed.
For 2' (.60m) deck heights

Chopped Log Climber

Hand sculpted, airbrushed log climber provides an easy climb to the deck.
For 2'-4' (.60m-1.22m) deck heights

Burled Stump Climber

Features a hollowed out stump appearance with multiple holes and tunnels for exploring.
For 6' (1.83m) deck heights

Log Stack

Horizontally stacked logs are hand sculpted and airbrushed.
For 2' and 6' (.60m and 1.83m) deck heights

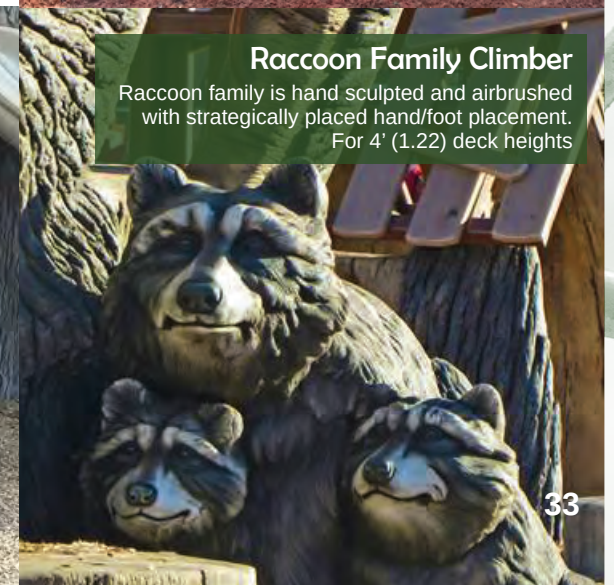

Mama Bear Climber

Hand sculpted, airbrushed bear family features mama bear and cub.
For 4' (1.22m) deck heights

Pine Peak Climber

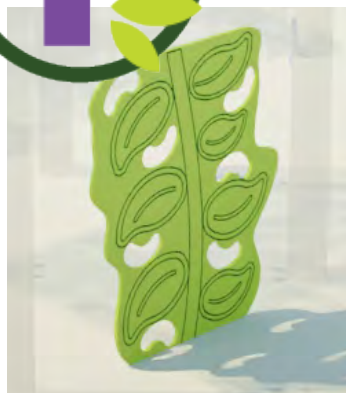

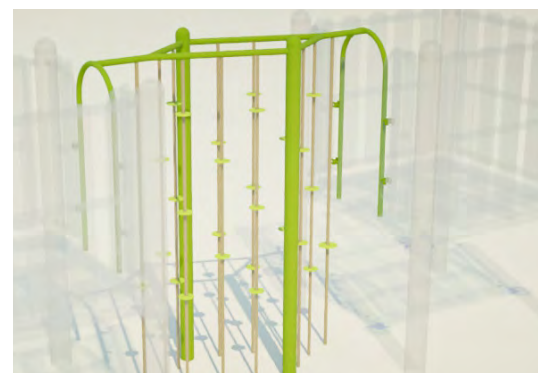

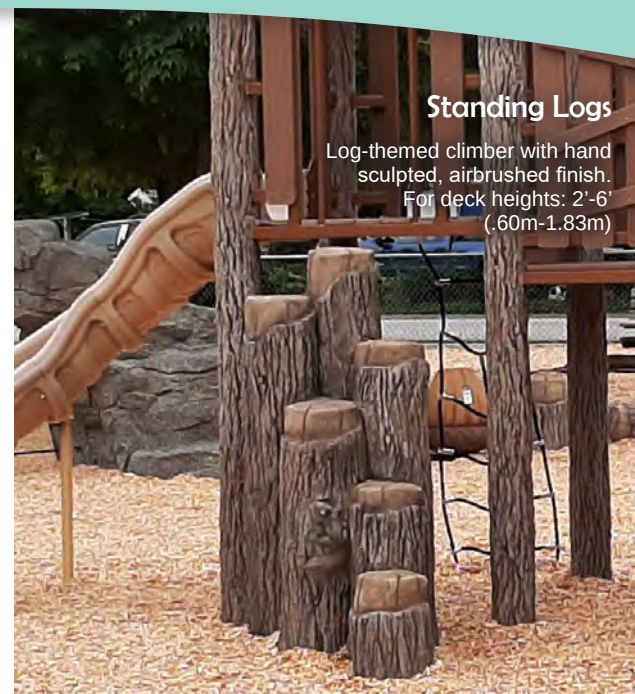

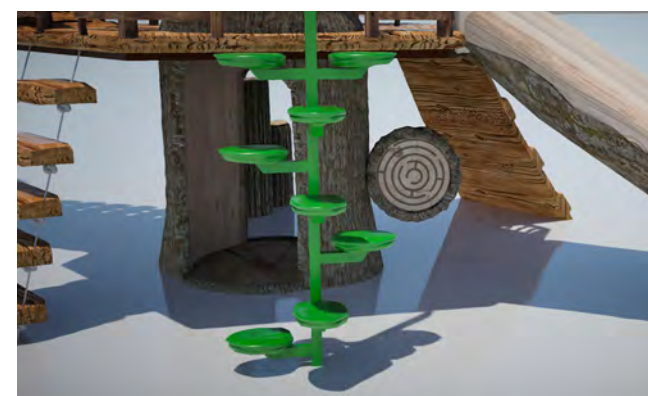

Hand sculpted, airbrushed tree and bark textures.
For 2'-6' (.60m-1.83m) deck heights

Raccoon Family Climber

Raccoon family is hand sculpted and airbrushed with strategically placed hand/foot placement.
For 4' (1.22) deck heights

PLAYIT CREATIONS - PRODUCT LIMITED WARRANTY

During the applicable warranty period, Playit Creations shall repair any defective product or make available a replacement, within 60 days of receiving written notification. The option to repair or replace product(s) or parts shall be at the sole discretion of Playit Creations. Playit Creations shall make repairs to the product or part on site, deliver the repaired or replaced product or part to the site free of charge, but will not be responsible for providing labor or the cost of labor for the removal of the defective product or parts and the installation of any replacement product or parts. Replaced or repaired parts shall be warranted for the balance of the original part's applicable warranty period. Replacement of a product or part shall not, under any circumstance, exceed the suggested retail price of the product or part at the original date of purchase.

Playit Creations does not warranty any wear and tear resulting from normal use of the product. Cosmetic issues such as surface scratches, chips, hairline cracks, wearing or fading paint, efflorescence visible on the product, or plastic warping or gaping as well as other cosmetic issues are not covered. Any deviation from the installation instructions and/or recommended maintenance procedures provided by Playit Creations to the customer will void any manufacturers' warranty on the product. Playit Creations does not warranty any product failure or damage due to vandalism. Playit Creations shall not be held liable due to unforeseen circumstances or causes beyond its control, including but not limited to strike, embargo, riot, war, fire, act of God, vendor delays, or subcontractor or customer caused delays. To make a claim, please mail your written statement of warranty claim along with your project number and invoice number to:

Playit Creations
5100 130th St N
Hugo, MN 55038 USA

LIMITED WARRANTY LENGTHS

10-Year Limited Warranty: On all GFRC-based products against manufacturing defects and structural failure due to natural causes. Product warranty does not cover surface scratches, hairline cracks, chips in GFRC-based products, efflorescence, or wearing of surface pigments or paints, recycled plastic lumber products. Be aware that recycled plastic lumber or decking will weather naturally and change color slightly over time, this change in color is not covered.

5-Year Limited Warranty: On all steel components manufactured by other pre-approved playground manufacturers that are encased in GFRC based materials. The warranty will not cover any manufacturing defects of these products; the warranty only extends to the GFRC application to the product. Applies to all CHPL panels.

3-Year Limited Warranty: On all ropes, nets and cables, swing components, swing hangers, and rubber or plastic swing seats due to manufacturing defects or defects in materials. On all Products containing natural materials, such as natural wood, natural fibers, natural rope. On all nets and cables, swing components, swing hangers, and rubber or plastic swing seats due to manufacturing defects or defects in materials.

1-Year Limited Warranty: On all rotationally molded plastic components and High Density Polyethylene plastic sheet, not including plastic products encased in GFRC. On all structural steel framework and steel components against structural failure due to manufacturing defects or defects in materials. On all plastic components manufactured by other pre-approved playground manufacturers that are encased in GFRC based materials. The warranty will not cover any manufacturing defects of these products; the warranty only extends to the GFRC application to the product.

*Playit Creations, a DBA of WELDIT METAL WORKS INC reserves the right to accept or reject any claim in whole or in part.

WHAT IS GFRC?

Glass Fiber Reinforced Concrete (GFRC) is a concrete mixture created from a combination of Portland cement, silica sand, alkaline resistant chopped fiberglass and may include any combination of additives. Once the raw materials are prepared, measured, and blended appropriately, the mixture is then expertly applied in thin layers into a product mold. GFRC is uniquely beneficial in that it is capable of making lightweight decorative concrete products while maintaining large load capacities and unparalleled overall strength.

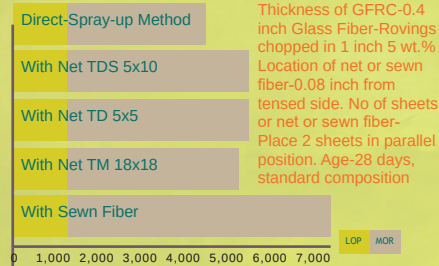

All professionally mixed and placed concrete has great compression strength, but it is not flexible and has practically no tensile strength. Large cracks commonly occur in concrete applications due to drying, shrinkage and movement. When cracks form in concrete, the severity of the crack will depend on how much reinforcement is present in the concrete. However, Alkaline resistant chopped fiberglass, when added to concrete mixtures correctly, adds advanced flexibility and lightens the weight of the concrete creating Glass Fiber Reinforced Concrete. The alkaline resistant chopped fiber glass gives GFRC three times higher tensile strength than that of unreinforced concrete and will help prevent anything larger than standard hairline cracks in the finished product.

FEATURES OF GFRC:

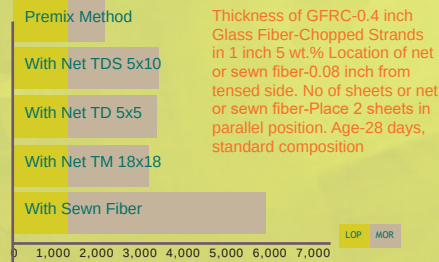

- ADVANCED BENDING STRENGTH
- GREAT IMPACT STRENGTH
- TOUGH AND CRACK RESISTANT
- LIGHTWEIGHT PRODUCTS
- ALLOWS FOR ARTISTIC DESIGN

BENDING STRENGTH OF GFRC USED WITH NET OR SEWN FIBER

THE SECRET FORMULA

At PlayIt Creations, our proprietary GFRC formula - **ThemeCRETE®**, has been created utilizing decades of application experience and field observations along with the most modern technologies available. Our ability to enhance the finest details in our product stems from a unique combination of specialized expertise spanning across several industries and honed over **decades** of working with and pioneering advances in GFRC environments.

STRESS STRAIN CURVES OF GFRC

GFRC acts as an elastic solid up to point A (Limit of Proportionality). The curves between A (LOP) and B (MOR) illustrate the fact that only glass fiber contributes to the reinforcement, which is the main characteristic of GFRC's high impact strength.

WHAT'S IN YOUR PRODUCT?

GFRC (glass fiber reinforced concrete) is a specific type of concrete product that must contain **Alkaline Resistant Chopped Fiberglass**. Without this key ingredient, all the strength and flexibility benefits of GFRC are removed, leaving just standard concrete behind. There are only a handful of manufacturers around the world who create this special form of fiberglass. Ask your theming manufacturer if they are providing true GFRC in their concrete products.

THE ORIGINAL. THE BEST.

PlayIt Creations' ThemeCRETE mix has over 30 years of experience backing it up. We actively search for new and improved additives to further enhance our formula to meet current concrete expectations for strength and longevity. For your next themed project, demand a high level of expertise in artistic creation, a product you can count on, and a team with the ability to execute your vision.

To ensure the highest levels of craftsmanship, all molds and sculptures utilized by PlayIt Creations are created by our own team of in-house sculptors and artistic professionals. We understand that developing and maintaining a highly skilled team of artists as well as our own library of molds will ensure a level of quality and consistency that our customers can count on for decades to come.

THE STRUCTURE OF MY SECRET LAIR MUST BE AS STRONG AND RESILIENT AS I AM
